

# 2022-2023 bite2go school year report card

## year at a glance

Every week during the 2022-2023 school year, Bite2Go filled the weekend food gap for over 5,000 elementary students in Spokane and Stevens Counties, along with more than 4,250 kids across the greater Bite2Go service area.

The number of kids receiving Bite2Go jumped compared to the previous school year in part because of inflation; higher inflation brought higher rates of food insecurity for families in our community. The Bite2Go team also identified a significant pocket of unmet need at the pre-K level. Thanks to the generosity of multiple Spokane families, we now serve over 550 pre-school kids through area Headstart and ECEAP programs.

In this time of greater need, we are especially thankful for the generosity of the churches, businesses, clubs and individuals who helped to provide weekend food relief to kids facing chronic food shortages at home. Our donors and program partners help to get kids the nutrition they need over the weekend, so they come to school ready to learn on Monday morning.

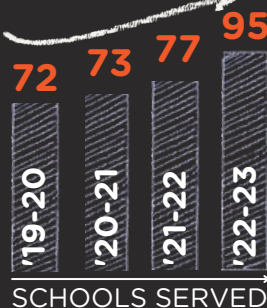

“Our families are so grateful to receive this support! It makes a profound positive difference for our students to know they will have food throughout the weekend. This is also a huge support to our families who come to us from different countries. Many families arrive with little to nothing, and they are incredibly thankful for this support as they settle into our community.”
